

# Water Filtration Products

COLD BEVERAGE, HOT BEVERAGE AND  
ICE MACHINE APPLICATIONS

**FLOJET**  
a xylem brand

# Cartridges

## C1-2500000

**Application:**  
Single Carbonator

**Description:**  
Sediment, chlorine  
taste & odor reduction

**Chlorine Reduction  
Capacity:** 10,000 gals.  
(37,850 lit.)

**Micron Rating:** 1

**Length:** 13-3/4"

**Diameter:** 3-5/16"

## C1-2510000

**Application:**  
Ice machine

**Description:** Sediment,  
Chlorine taste & odor,  
scale inhibitor

**Chlorine Reduction  
Capacity:** 10,000 gals  
(37,850 lit.)

**Micron Rating:** 1

**Length:** 13-3/4"

**Diameter:** 3-5/16"

## C1-3500000

**Application:**  
Single Carbonator

**Description:**  
Sediment, chlorine  
taste & odor reduction

**Chlorine Reduction  
Capacity:** 12,600 gals.  
(47,696 lit.)

**Micron Rating:** 1

**Length:** 17-15/16"

**Diameter:** 3-5/16"

## C1-4500000

**Application:**  
Single carbonator with  
non-carb dispenser

**Description:**  
Sediment, chlorine  
taste & odor reduction

**Chlorine Reduction  
Capacity:** 25,000 gals.  
(94,635 lit.)

**Micron Rating:** 3

**Length:** 11-3/4"

**Diameter:** 4-7/16"

## C1-6500000

**Application:**  
Twin Carbonator

**Description:**  
Sediment, chlorine  
taste & odor  
reduction

**Chlorine Reduction  
Capacity:** 35,000 gals.  
(132,489 lit.)

**Micron Rating:** 3

**Length:** 14-3/4"

**Diameter:** 4-7/16"

## C1-9500000

**Application:**  
Triple Carbonator

**Description:**  
Sediment, chlorine  
taste & odor reduction

**Chlorine Reduction  
Capacity:** 54,000 gals.  
(204,390 lit.)

**Micron Rating:** 3

**Length:** 20-3/4"

**Diameter:** 4-7/16"

## C1-6520000

**Application:**  
Twin Carbonator

**Description:** Sediment,  
chloramines, chlorine  
taste & odor reduction

**Chlorine Reduction  
Capacity:** 70,000 gals.  
(264,980 lit.) \*

**Chloramine Reduction  
Capacity:** 7,000 gals.  
(26,498 lit.)

**Micron Rating:** 5

**Length:** 14-3/4"

**Diameter:** 4-7/16"

## C1-9520000

**Application:**  
Triple Carbonator

**Description:** Sediment,  
chloramines, chlorine taste  
& odor reduction

**Chlorine Reduction Capacity:**  
120,000 gals. (454,249 lit.) \*

**Chloramine Reduction Capacity:**  
30,000 gals. (113,550 lit.)

**Micron Rating:** 5

**Length:** 20-3/4"

**Diameter:** 4-7/16"

\*As tested by manufacturer's laboratory.

# Flojet's Carbon Block Filters provide the best path to recipe quality water

for cold beverage, hot beverage and ice machine OEMs and distributors and end users who seek effective, reliable and low-effort water filtration with the best lifetime cost per gallon.

## Key Features include

- Compact
- Best lifetime cost per gallon
- Expandable
- Easy and fast to service/change out
- High flow rates - up to 5 GPM through 1 head
- Retrofit models available
- Optional scale inhibitor available
- Optional chloramine reduction available

# Competitor Retrofit Cartridges

## C2-3500000

**Description:**  
Sediment, chlorine taste & odor

**Capacity:**  
12,600 gals.  
(47,696 lit.)

**Length:**  
14.375"  
(36.5cm)

**Diameter:**  
3.375" (8.6cm)

## C2-3510000

**Description:**  
Sediment, chlorine taste & odor, scale inhibitor

**Capacity:**  
12,600 gals.  
(47,696 lit.)

**Length:**  
14.375"  
(36.5cm)

**Diameter:**  
3.375" (8.6cm)

# Filter Heads

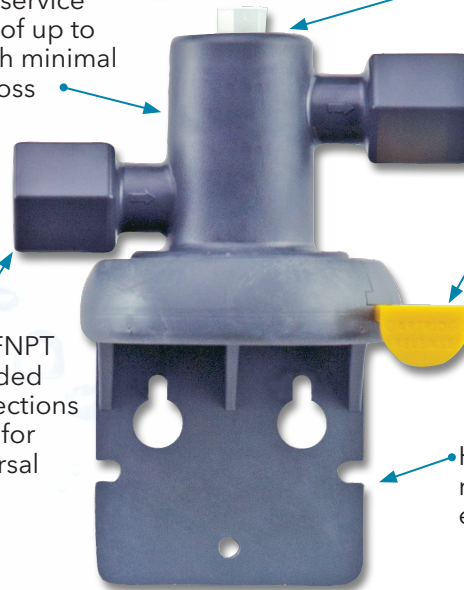

High flow design allows for service flow rates of up to 5 gpm with minimal pressure loss

"Plugged" version allows user to upgrade to a gauge at a later time

1/2" FNPT threaded connections allow for universal use

Cartridge locking system ensures that cartridge is properly installed

Head includes integral mounting bracket for easy installation

## HN3-12N000

**Application:**  
Flow rates up to 5 gpm

**Description:**  
1/2" NPT with Gauge Port

## HN3-12B000

**Application:**  
Flow rates up to 5 gpm

**Description:**  
1/2" BSP with Gauge Port

**One head allows for cartridge upgrades so that the system can grow with customer needs.**

# Cold Beverage, Hot Beverage and Ice Machine Applications

Flojet's Carbon Block Filtration is the filtration solution that provides the highest reliability for delivery recipe quality water due to having 4x the chlorine taste and odor capacity of competing products and reducing change-out time to a fraction of competing products.
